Projects

Book My Show Website Clone [🔗](#)

Made the Clone of Book My Show Website with only HTML, CSS and the operations of DOM in which one can select a movie and can book his/her ticket in the exact manner of book my show website.

Here is the Github code for the same <https://github.com/AbhirupDey12/BO>

Twitter Clone [🔗](#)

Tried to make the small replica of the famous social media app twitter with plain HTML,CSS and the DOM operations of javascript in which one can create,update and delete the tweet supported by the back-end API.
